History of Harman Chahawala:

The journey starts with a kid, 2 years old, who lost his father. This is a journey of series of rejections, series of problems, dozens of obstacles, but also a journey of hard work, a journey of self-belief, a journey of a carver who carved his life and of others through his vision and confidence. This journey is of the founder of Harman Chahawala, “Mr. Haribhau Kulkarni”.

At the age of 2, Hari lost his father. Hari, his mother and his younger brother were left back on the streets of Sangli. At the age of 22, Hari started selling tea, to make the ends meet. He has been selling tea since then. In 2018 he and his son, Mr. Siddharth Kulkarni, decided to establish a company, dedicated to the beverage, from where this whole journey began. That is when they came up with the idea of launching “Harman Chahawala”. In 2018, Harman Chahawala’s first outlet was inaugurated in Sangli, Maharashtra. Hari has been working in the food business, since early 1990’s. Hari has a solid experience of 32 years in the field.
